## INDEX OF AUTHORS

### VOLUME XIII

TRANSACTIONS OF AMERICAN SOCIETY FOR STEEL TREATING

January, 1928—June, 1928

#### A

Alleman, N. J. .... 405  
Allen, Henry B. .... 603  
Ayling, J. S. .... 1039

Knerr, Horace C. .... 723  
Knowlton, H. B. .... 142, 848

#### L

Le Chatelier, Henry .... 555

#### B

Beecher, M. F. .... 473  
Blackwood, P. W. .... 1023  
Boston, O. W. .... 49  
Boynton, H. C. .... 949

#### M

McKnight, Charles .... 638  
Merten, W. J. .... 1  
Miura, Sansaku .... 270  
Moisseiff, L. S. .... 941  
Moore, H. F. .... 405  
Morris, H. T. .... 954  
Mudge, J. B. .... 221

#### C

Cooney, F. E. .... 221

#### P

de Forest, A. V. .... 952  
De Long, B. H. .... 420  
Digges, T. G. .... 919  
Dornin, G. A. .... 29

Palmer, F. R. .... 420  
Phragmen, Gosta .... 539  
Primrose, J. S. Glen.... 617

#### F

Foley, Francis B. .... 813  
French, H. J. .... 919

#### R

Rapatz, Dr. Ing. F. .... 1009  
Rockwell, S. P. .... 795

#### G

Greene, O. V. .... 573  
Grossmann, M. A. .... 291  
Guertler, Dr. William M. .... 759

#### S

Scott, Howard .... 829  
Sisco, F. T. .... 305, 659, 1043  
Snyder, C. C. .... 201  
St. John, Dr. Aneel .... 485

#### H

Harder, O. E. .... 961  
Hepburn, W. M. .... 126  
Homerberg, Dr. V. O. .... 297  
Honda, Kotaro .... 95, 270  
Houston, D. M. .... 105

#### T

Tamaru, Kanzi .... 95

#### J

Jeffries, Dr. Zay .... 369  
Jerabek, T. E. .... 961

Weber, L. J. .... 961  
Westgren, Arne .... 539  
Woodward, R. W. .... 795  
Wright, Frank L. .... 282

#### K

Kenyon, Reid L. .... 240, 435

#### Z

Zavarine, I. N. .... 297

## INDEX OF SUBJECTS AND AUTHORS OF PAPERS

### VOLUME XIII

TRANSACTIONS OF AMERICAN SOCIETY FOR STEEL TREATING

January, 1928—June, 1928

#### A

Abnormal Carburizing Steels; Studies of Normal and— <i>O. E. Harder, L. J. Weber and T. E. Jerabek</i> .....	961
Acid Open-Hearth Steel for Suspension Cables; Manufacture of— <i>H. C. Boynton</i> .....	949
Aircraft Metallurgy— <i>Horace C. Knerr</i> .....	723
Alloy Steel for Boiler Construction— <i>Charles McKnight</i> .....	638
Alloyed, Especially High Speed Steels; Influence of the Structure "As Cast" upon Manufacturing and Qualities of Some— <i>Dr. Ing. F. Rapatz</i> .....	1009
Aluminum and Chromium-Nickel-Aluminum Steels; Physical Properties of Several Chromium— <i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Analysis of Metals; High Speed, High Voltage X-ray Diffraction— <i>Dr. Aneel St. John</i> .....	485
Analysis of Steel and Some Results of Dilatometric Heat Treatment; Dilatometric— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Antimony, Arsenic, Copper and Tin in High Speed Tool Steel; Effects of— <i>H. J. French and T. G. Digges</i> .....	919
Applied to Cold Heading Ball Dies of Plain Carbon Tool Steel; High Temperature Quenching Treatment— <i>Frank L. Wright</i> .....	282
Armeo Ingot Iron—Part I— <i>Reid L. Kenyon</i> .....	240
Armeo Ingot Iron—Part II— <i>Reid L. Kenyon</i> .....	435
Arsenic, Copper and Tin in High Speed Tool Steel; Effects of Antimony— <i>H. J. French and T. G. Digges</i> .....	919
Aspects of Cast Iron; Metallurgical— <i>P. W. Blackwood</i> .....	1023

#### B

Ball Dies of Plain Carbon Tool Steel; High Temperature Quenching Treatment Applied to Cold Heading— <i>Frank L. Wright</i> .....	282
Bath; On a New Method of Quenching Steels in a High Temperature— <i>Kotaro Honda and Kanzi Tamari</i> .....	95
Boiler Construction; Alloy Steel for— <i>Charles McKnight</i> .....	638
Bridge Construction; Silicon Structural Steel for— <i>H. T. Morris</i> .....	954
Bridges; High Strength Steel for Modern— <i>L. S. Moisseiff</i> .....	941

#### C

Cables; Manufacture of Acid Open-Hearth Steel for Suspension— <i>H. C. Boynton</i> .....	949
Carbide of High Speed Steel; On the Double— <i>Arne Westgren and Gosta Phragmen</i> .....	539
Carbon Tool Steel; High Temperature Quenching Treatment Applied to Cold Heading Ball Dies of Plain— <i>Frank L. Wright</i> .....	282
Carburized Steel; Fatigue Tests of— <i>H. F. Moore and N. J. Alleman</i> ...	405
Carburizing Compounds; Production Tests of— <i>J. S. Ayling</i> .....	1039

Carburizing Steel; Studies of Normal and Abnormal—	
<i>O. E. Harder, L. J. Weber and T. E. Jerabek</i> .....	961
Cast Iron; Metallurgical Aspects of— <i>P. W. Blackwood</i> .....	1023
Cast Iron; The Constitution of Steel and—Section II—Part II—	
<i>F. T. Sisco</i> .....	305
Cast Iron; The Constitution of Steel and—Section II—Part III—	
<i>F. T. Sisco</i> .....	659
Cast Iron; The Constitution of Steel and—Section II—Part IV—	
<i>F. T. Sisco</i> .....	1043
Castings; Economic Value of Nickel and Chromium in Gray Iron—	
<i>D. M. Houston</i> .....	105
Castings and forgings as evidenced by Core Drill Tests from Heavy Sections; High Temperature Treatments of— <i>W. J. Merten</i> .....	1
Chapters, News of the .....	178, 349, 525, 700, 907, 1077
Characteristics of Low-Expansion Nickel Steels; Expansion—	
<i>Howard Scott</i> .....	829
Chromium in Gray Iron Castings; Economic Value of Nickel and—	
<i>D. M. Houston</i> .....	105
Chromium-Aluminum and Chromium-Nickel-Aluminum Steels; Physical Properties of Several—	
<i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Cold Heading Ball Dies of Plain Carbon Tool Steel; High Temperature Quenching Treatment Applied to— <i>Frank L. Wright</i> .....	282
Cold Working; Hardening by Reheating After—	
<i>M. A. Grossmann and C. C. Snyder</i> .....	201
Compounds; Production Tests of Carburizing— <i>J. S. Ayling</i> .....	1039
Concerning Steel and Heat Treatment; Facts and Principles—Part XVI— <i>H. B. Knowlton</i> .....	142
Concerning Steel and Heat Treatment; Facts and Principles—Part XVII— <i>H. B. Knowlton</i> .....	848
Constitution of Steel; A Contribution to the Theory of Hardening and the— <i>Dr. Zay Jeffries</i> .....	369
Constitution of Steel and Cast Iron—Section II—Part II—	
<i>F. T. Sisco</i> .....	305
Constitution of Steel and Cast Iron—Section II—Part III—	
<i>F. T. Sisco</i> .....	659
Constitution of Steel and Cast Iron—Section II—Part IV—	
<i>F. T. Sisco</i> .....	1043
Construction; Alloy Steel for Boiler— <i>Charles McKnight</i> .....	638
Construction; Silicon Structural Steel for Bridge— <i>H. T. Morris</i> .....	954
Contamination Phases; Melting or Molten Stage of Steel Manufacture with Particular Reference to the Deoxidizing, Refining and—	
<i>G. A. Dornin</i> .....	29
Contribution to the Theory of Hardening and the Constitution of Steel—	
<i>Dr. Zay Jeffries</i> .....	369
Copper and Tin in High Speed Tool Steel; Effects of Antimony, Arsenic— <i>H. J. French and T. G. Digges</i> .....	919
Core Drill Tests from Heavy Sections; High Temperature Treatments of Castings and forgings as evidenced by— <i>W. J. Merten</i> .....	1
Corrosion of Metals— <i>Dr. William M. Guertler</i> .....	759
Cutter; Evaluating Quality in Heat Treated High Speed Steel by Means of the Milling— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Cutting Off Saws; Development of High Speed Steel Hack Saws or—	
<i>Henry B. Allen</i> .....	603

## D

Deoxidizing, Refining and Contamination Phases; Melting or Molten Stage of Steel Manufacture with Particular Reference to the—	
<i>G. A. Dornin</i> .....	29
Determination of the Heterogeneous Field in the Iron-Nickel System; On the— <i>Kotaro Honda and Sansaku Miura</i> .....	270
Development in Heat Treating and Forging; Furnace—	
<i>W. M. Hepburn</i> .....	126

Development of High Speed Steel Hack Saws or Cutting Off Saws— <i>Henry B. Allen</i> .....	603
Dies of Plain Carbon Tool Steel; High Temperature Quenching Treatment Applied to Cold Heading Ball— <i>Frank L. Wright</i> .....	282
Diffraction Analysis of Metals; High Speed, High Voltage X-Ray— <i>Dr. Ancel St. John</i> .....	485
Dilatometric Analysis of Steel and Some Results of Dilatometric Heat Treatment— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Dilatometric Heat Treatment; Dilatometric Analysis of Steel and Some Results of— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Double Carbide of High Speed Steel; On the— <i>Arne Westgren and Gosta Phragmen</i> .....	539
Drawn Wire and Its Heat Treatment— <i>A. V. de Forest</i> .....	952
Drill Tests from Heavy Sections; High Temperature Treatments of Castings and forgings as Evidenced by Core— <i>W. J. Merten</i> .....	1

## E

Economic Value of Nickel and Chromium in Gray Iron Castings— <i>D. M. Houston</i> .....	105
Effects of Antimony, Arsenic, Copper and Tin in High Speed Tool Steel— <i>H. J. French and T. G. Digges</i> .....	919
Elevated Temperatures; On the Significance of the Proportional Limit of Steel at— <i>Francis B. Foley</i> .....	813
Engineering Index .....	155, 328, 505, 677, 888, 1061
Evaluating Quality in Heat Treated High Speed Steel by Means of the Milling Cutter— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Evidenced by Core Drill Tests from Heavy Sections; High Temperature Treatments of Castings and forgings as— <i>W. J. Merten</i> .....	1
Expansion Characteristics of Low-Expansion Nickel Steels— <i>Howard Scott</i> .....	829

## F

Facts and Principles Concerning Steel and Heat Treatment—Part XVI— <i>H. B. Knowlton</i> .....	142
Facts and Principles Concerning Steel and Heat Treatment—Part XVII— <i>H. B. Knowlton</i> .....	848
Fatigue Tests of Carburized Steel— <i>H. F. Moore and N. J. Alleman</i> .....	405
Field in the Iron-Nickel System; On the Determination of the Heterogeneous— <i>Kotaro Honda and Sansaku Miura</i> .....	270
Forging; Furnace Development in Heat Treating and— <i>W. M. Hepburn</i> .....	126
Forgings as Evidenced by Core Drill Tests from Heavy Sections; High Temperature Treatments of Castings and— <i>W. J. Merten</i> .....	1
Forging Steels; Locomotive— <i>O. V. Greene</i> .....	573
Furnace Development in Heat Treating and Forging— <i>W. M. Hepburn</i> ..	126

## G

Gray Iron Castings; Economic Value of Nickel and Chromium in— <i>D. M. Houston</i> .....	105
---	-----

## H

Hack Saws or Cutting Off Saws; Development of High Speed Steel— <i>Henry B. Allen</i> .....	603
Hardening and the Constitution of Steel; A Contribution to the Theory of— <i>Dr. Zay Jeffries</i> .....	369
Hardening by Reheating After Cold Working— <i>M. A. Grossmann and C. C. Snyder</i> .....	201

Heading Ball Dies of Plain Carbon Tool Steel; High Temperature Quenching Treatment Applied to Cold— <i>Frank L. Wright</i> .....	282
Heat; On the Theory of— <i>Henry Le Chatelier</i> .....	555
Heat Treated High Speed Steel by Means of the Milling Cutter; Evaluating Quality in— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Heat Treating and Forging; Furnace Development in— <i>W. M. Hepburn</i> .....	126
Heat Treatment; Dilatometric Analysis of Steel and Some Results of Dilatometric— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Heat Treatment; Drawn Wire and Its— <i>A. V. de Forest</i> .....	952
Heat Treatment; Facts and Principles Concerning Steel and—Part XVI— <i>H. B. Knowlton</i> .....	142
Heat Treatment; Facts and Principles Concerning Steel and—Part XVII— <i>H. B. Knowlton</i> .....	848
Heavy Sections; High Temperature Treatments of Castings and forgings as Evidenced by Core Drill Tests from— <i>W. J. Merten</i> .....	1
Heterogeneous Field in the Iron-Nickel System; On the Determination of the— <i>Kotaro Honda and Sansaku Miura</i> .....	270
High Speed, High Voltage, X-Ray Diffraction Analysis of Metals— <i>Dr. Ancel St. John</i> .....	485
High Speed Steel; On the Double Carbide of— <i>Arne Westgren and Gosta Phragmen</i> .....	539
High Speed Steel by Means of the Milling Cutter; Evaluating Quality in Heat Treated— <i>J. B. Mudge and F. E. Cooney</i> .....	221
High Speed Steels; Influence of the Structure "As Cast" Upon Manufacturing and Qualities of Some Alloyed Especially— <i>Dr. Ing. F. Rapatz</i> .....	1009
High Speed Steel Hack Saws or Cutting Off Saws; Development of— <i>Henry B. Allen</i> .....	603
High Speed Steel is Quenched; What Happens When— <i>B. H. De Long and F. R. Palmer</i> .....	420
High Speed Tool Steel; Effects of Antimony, Arsenic, Copper and Tin in— <i>H. J. French and T. G. Digges</i> .....	919
High-Strength Steel for Modern Bridges— <i>L. S. Moissieff</i> .....	941
High Temperature Bath; On a New Method of Quenching Steels in a— <i>Kotaro Honda and Kanzi Tamaru</i> .....	95
High Temperature Quenching Treatment Applied to Cold Heading Ball Dies of Plain Carbon Tool Steel— <i>Frank L. Wright</i> .....	282
High Temperature Treatments of Castings and forgings as Evidenced by Core Drill Tests from Heavy Sections— <i>W. J. Merten</i> .....	1

## I

Important Properties and Requirements of some Special Refractories— <i>M. F. Beecher</i> .....	473
Index, Engineering .....	155, 328, 505, 677, 888, 1061
Influence of the Structure "As Cast" Upon Manufacturing and Qualities of Some Alloyed, Especially High Speed Steels— <i>Dr. Ing. F. Rapatz</i> .....	1009
Ingot Iron; Armeo—Part I— <i>Reid L. Kenyon</i> .....	240
Ingot Iron; Armeo—Part II— <i>Reid L. Kenyon</i> .....	435
Iron Castings; Economic Value of Nickel and Chromium in Gray— <i>D. M. Houston</i> .....	105
Iron-Nickel System; On the Determination of the Heterogeneous Field in the— <i>Kotaro Honda and Sansaku Miura</i> .....	270
Iron; Armeo Ingot—Part I— <i>Reid L. Kenyon</i> .....	240
Iron; Armeo Ingot—Part II— <i>Reid L. Kenyon</i> .....	435
Iron; Constitution of Steel and Cast—Section II—Part II— <i>F. T. Sisco</i> .....	305
Iron; Constitution of Steel and Cast—Section II—Part III— <i>F. T. Sisco</i> .....	659
Iron; Constitution of Steel and Cast—Section II—Part IV— <i>F. T. Sisco</i> .....	1043

Iron; Metallurgical Aspects of Cast— <i>P. W. Blackwood</i> .....	1023
---	------

## L

Limit of Steel at Elevated Temperatures; On the Significance of the Proportional— <i>Francis B. Foley</i> .....	813
Locomotive Forging Steels— <i>O. V. Greene</i> .....	573
Low-Expansion Nickel Steels; Expansion Characteristics of— <i>Howard Scott</i> .....	829

## M

Machinability of Metals— <i>O. W. Boston</i> .....	49
Manufacture of Acid Open-Hearth Steel for Suspension Cables— <i>H. C. Boynton</i> .....	949
Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination Phases; Melting or Molten Stage of Steel— <i>G. A. Dornin</i> .....	29
Manufacturing and Qualities of Some Alloyed, Especially High Speed Steels; Influence of the Structure "As Cast" upon— <i>Dr. Ing. F. Rapatz</i> .....	1009
Melting or Molten Stage of Steel Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination Phases— <i>G. A. Dornin</i> .....	29
Metals; Corrosion of— <i>Dr. William M. Guertler</i> .....	759
Metals; High Speed, High Voltage X-Ray Diffraction Analysis of— <i>Dr. Ancel St. John</i> .....	485
Metals; Machinability of— <i>O. W. Boston</i> .....	49
Metallurgy; Aircraft— <i>Horace C. Knerr</i> .....	723
Metallurgical Aspects of Cast Iron— <i>P. W. Blackwood</i> .....	1023
Method of Quenching Steels in a High Temperature Bath; On a New— <i>Kotaro Honda and Kanzi Tamari</i> .....	95
Milling Cutter; Evaluating Quality in Heat Treated High Speed Steel by Means of the— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Modern Bridges; High-Strength Steel for— <i>L. S. Moisseiff</i> .....	941
Molten Stage of Steel Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination Phases; Melting or— <i>G. A. Dornin</i> .....	29

## N

New Method of Quenching Steels in a High Temperature Bath; On a— <i>Kotaro Honda and Kanzi Tamari</i> .....	95
News of the Chapters .....	178, 349, 525, 700, 907, 1077
News of the Society .....	172, 344, 523, 693, 903
Nickel and Chromium in Gray Iron Castings; Economic Value of— <i>D. M. Houston</i> .....	105
Nickel-Aluminum Steels; Physical Properties of Several Chromium-Aluminum and Chromium— <i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Nickel Steels; Expansion Characteristics of Low-Expansion— <i>Howard Scott</i> .....	829
Nickel System; On the Determination of the Heterogeneous Field in the Iron— <i>Kotaro Honda and Sansaku Miura</i> .....	270
Normal and Abnormal Carburizing Steels; Studies of— <i>O. E. Harder, L. J. Weber and T. E. Jerabek</i> .....	961

## O

On the Determination of the Heterogeneous Field in the Iron-Nickel System— <i>Kotaro Honda and Sansaku Miura</i> .....	270
--	-----

On the Double Carbide of High Speed Steel— <i>Arne Westgren and Gosta Phragmen</i> .....	539
On a New Method of Quenching Steels in a High Temperature Bath— <i>Kotaro Honda and Kanzi Tamari</i> .....	95
On the Significance of the Proportional Limit of Steel at Elevated Temperatures— <i>Francis B. Foley</i> .....	813
On the Theory of Heat— <i>Henry Le Chatelier</i> .....	555
Open-Hearth Steel for Suspension Cables; Manufacture of Acid— <i>H. C. Boynton</i> .....	949

**P**

Particular Reference to the Deoxidizing, Refining and Contamination Phases; Melting or Molten Stage of Steel Manufacture with— <i>G. A. Dornin</i> .....	29
Patenting of Steel— <i>J. S. Glen Primrose</i> .....	617
Patents; Reviews of Recent .....	324, 497, 673, 884, 1058
Phases; Melting or Molten Stage of Steel Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination— <i>G. A. Dornin</i> .....	29
Physical Properties of Several Chromium-Aluminum and Chromium-Nickel-Aluminum Steels— <i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Plain Carbon Tool Steel; High Temperature Quenching Treatment Applied to Cold Heading Ball Dies of— <i>Frank L. Wright</i> .....	282
Principles Concerning Steel and Heat Treatment; Facts and—Part XVI — <i>H. B. Knowlton</i> .....	142
Principles Concerning Steel and Heat Treatment; Facts and—Part XVII — <i>H. B. Knowlton</i> .....	848
Production Tests of Carburizing Compounds— <i>J. S. Ayling</i> .....	1039
Properties and Requirements of Some Special Refractories; Important <i>M. F. Beecher</i> .....	473
Properties of Several Chromium-Aluminum and Chromium-Nickel-Aluminum Steels; Physical— <i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Proportional Limit of Steel at Elevated Temperatures; On the Significance of the— <i>Francis B. Foley</i> .....	813

**Q**

Qualities of Some Alloyed, Especially High Speed Steels; Influence of the Structure "As Cast" upon Manufacturing and— <i>Dr. Ing. F. Rapatz</i> 1009	
Quality in Heat Treated High Speed Steel by Means of the Milling Cutter; Evaluating— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Quenched; What Happens When High Speed Steel is— <i>B. H. De Long and F. R. Palmer</i> .....	420
Quenching Steels in a High Temperature Bath; On a New Method of— <i>Kotaro Honda and Kanzi Tamari</i> .....	95
Quenching Treatment Applied to Cold Heading Ball Dies of Plain Carbon Tool Steel; High Temperature— <i>Frank L. Wright</i> .....	282

**R**

Recent Patents; Reviews of .....	324, 497, 673, 884, 1058
Reference to the Deoxidizing, Refining and Contamination Phases; Melting or Molten Stage of Steel Manufacture with Particular— <i>G. A. Dornin</i> .....	29
Refining and Contamination Phases; Melting or Molten Stage of Steel Manufacture with Particular Reference to the Deoxidizing— <i>G. A. Dornin</i> .....	29
Refractories; Important Properties and Requirements of Some Special— <i>M. F. Beecher</i> .....	473

Reheating After Cold Working; Hardening by—	
<i>M. A. Grossmann and C. C. Snyder</i> .....	201
Requirements of Some Special Refractories; Important Properties and—	
<i>M. F. Beecher</i> .....	473
Results of Dilatometric Heat Treatment; Dilatometric Analysis of Steel and Some— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Reviews of Recent Patents .....	324, 497, 673, 884, 1058

## S

Saws or Cutting Off Saws; Development of High Speed Steel Hack—	
<i>Henry B. Allen</i> .....	603
Sections; High Temperature Treatments of Castings and forgings as Evidenced by Core Drill Tests from Heavy— <i>W. J. Merten</i> .....	1
Significance of the Proportional Limit of Steel at Elevated Temperatures; On the— <i>Francis B. Foley</i> .....	813
Silicon Structural Steel for Bridge Construction— <i>H. T. Morris</i> .....	954
Society, News of the .....	172, 344, 523, 693, 903
Special Refractories; Important Properties and Requirements of Some—	
<i>M. F. Beecher</i> .....	473
Speed, High Voltage X-Ray Diffraction Analysis of Metals; High—	
<i>Dr. Ancel St. John</i> .....	485
Speed Steel by Means of the Milling Cutter; Evaluating Quality in Heat Treated High— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Speed Steel Hack Saws or Cutting Off Saws; Development of High—	
<i>Henry B. Allen</i> .....	603
Speed Steels; Influence of the Structure "As Cast" Upon Manufacturing and Qualities of Some Alloyed Especially High— <i>Dr. Ing. F. Rapatz</i> .....	1009
Speed Steel is Quenched—What Happens When High—	
<i>B. H. De Long and F. R. Palmer</i> .....	420
Speed Steel; On the Double Carbide of High—	
<i>Arne Westgren and Gosta Phragmen</i> .....	539
Speed Tool Steel; Effects of Antimony, Arsenic, Copper and Tin in High— <i>H. J. French and T. G. Digges</i> .....	919
Stage of Steel Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination Phases; Melting or Molten—	
<i>G. A. Dornin</i> .....	29
Steel; A Contribution to the Theory of Hardening and the Constitution of— <i>Dr. Zay Jeffries</i> .....	369
Steel and Cast Iron; The Constitution of—Section II—Part II—	
<i>F. T. Sisco</i> .....	305
Steel and Cast Iron; The Constitution of—Section II—Part III—	
<i>F. T. Sisco</i> .....	659
Steel and Cast Iron; The Constitution of—Section II—Part IV—	
<i>F. T. Sisco</i> .....	1043
Steel and Heat Treatment; Facts and Principles Concerning—Part XVI—	
<i>H. B. Knowlton</i> .....	142
Steel and Heat Treatment; Facts and Principles Concerning—Part XVII	
<i>H. B. Knowlton</i> .....	848
Steel and Some Results of Dilatometric Heat Treatment; Dilatometric Analysis of— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Steel at Elevated Temperatures; On the Significance of the Proportional Limit of— <i>Francis B. Foley</i> .....	813
Steel by Means of the Milling Cutter; Evaluating Quality in Heat Treated High Speed— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Steel; Effects of Antimony, Arsenic, Copper and Tin in High Speed Tool— <i>H. J. French and T. G. Digges</i> .....	919
Steel; Fatigue Tests of Carburized— <i>H. F. Moore and N. J. Alleman</i> .....	405
Steel for Boiler Construction; Alloy— <i>Charles McKnight</i> .....	638
Steel for Bridge Construction; Silicon Structural— <i>H. T. Morris</i> .....	954
Steel for Modern Bridges; High Strength— <i>L. S. Moisettif</i> .....	941
Steel for Suspension Cables; Manufacture of Acid Open-Hearth—	
<i>H. C. Boynton</i> .....	949

Steel Hack Saws or Cutting Off Saws; Development of High Speed— <i>Henry B. Allen</i> .....	603
Steel; High Temperature Quenching Treatment Applied to Cold Heading Ball Dies of Plain Carbon Tool— <i>Frank L. Wright</i> .....	282
Steel is Quenched; What Happens When High Speed— <i>B. H. De Long and F. R. Palmer</i> .....	420
Steel Manufacture with Particular Reference to the Deoxidizing, Refining and Contamination Phases; Melting or Molten Stage of— <i>G. A. Dornin</i> .....	29
Steel; On the Double Carbide of High Speed— <i>Arne Westgren and Gosta Phragmen</i> .....	539
Steel; Patenting of— <i>J. S. Glen Primrose</i> .....	617
Steels; Expansion Characteristics of Low-Expansion Nickel— <i>Howard Scott</i> .....	829
Steels in a High Temperature Bath; On a New Method of Quenching— <i>Kotaro Honda and Kanzi Tamaru</i> .....	95
Steels; Influence of the Structure "As Cast" Upon Manufacturing and Qualities of Some Alloyed, Especially High Speed— <i>Dr. Ing. F. Rapatz</i> .....	1009
Steels; Locomotive Forging— <i>O. V. Greene</i> .....	573
Steels; Physical Properties of Several Chromium-Aluminum and Chromium-Nickel-Aluminum— <i>Dr. V. O. Homerberg and I. N. Zavarine</i> .....	297
Steels; Studies of Normal and Abnormal Carburizing— <i>O. E. Harder, L. J. Weber and T. E. Jerabek</i> .....	961
Strength Steel for Modern Bridges; High— <i>L. S. Moisseiff</i> .....	941
Studies of Normal and Abnormal Carburizing Steels— <i>O. E. Harder, L. J. Weber and T. E. Jerabek</i> .....	961
Structure "As Cast" Upon Manufacturing and Qualities of Some Alloyed, Especially High Speed Steels; Influence of the— <i>Dr. Ing. F. Rapatz</i> .....	1009
Structural Steel for Bridge Construction; Silicon— <i>H. T. Morris</i> .....	954
Suspension Cables; Manufacture of Acid Open-Hearth Steel for— <i>H. C. Boynton</i> .....	949
System; On the Determination of the Heterogeneous Field in the Iron- Nickel— <i>Kotaro Honda and Sansaku Miura</i> .....	270

## T

Temperature Bath; On a New Method of Quenching Steels in a High— <i>Kotaro Honda and Kanzi Tamaru</i> .....	95
Temperature Quenching Treatment Applied to Cold Heading Ball Dies of Plain Carbon Tool Steel; High— <i>Frank L. Wright</i> .....	282
Temperature Treatments of Castings and forgings as Evidenced by Core Drill Tests from Heavy Section; High— <i>W. J. Merten</i> .....	1
Temperatures; On the Significance of the Proportional Limit of Steel at Elevated— <i>Francis B. Foley</i> .....	813
Tests from Heavy Sections; High Temperature Treatments of Castings and forgings as Evidenced by Core Drill— <i>W. J. Merten</i> .....	1
Tests of Carburized Steel; Fatigue— <i>H. F. Moore and N. J. Alleman</i> .....	405
Tests of Carburizing Compounds; Production— <i>J. S. Ayling</i> .....	1039
Theory of Hardening and the Constitution of Steel; A Contribution to the— <i>Dr. Zay Jeffries</i> .....	369
Theory of Heat; On the— <i>Henry Le Chatelier</i> .....	555
Tin in High Speed Tool Steel; Effects of Antimony, Arsenic, Copper and — <i>H. J. French and T. G. Digges</i> .....	919
Tool Steel; Effects of Antimony, Arsenic, Copper and Tin in High Speed — <i>H. J. French and T. G. Digges</i> .....	919
Tool Steel; High Temperature Quenching Treatment Applied to Cold Heading Ball Dies of Plain Carbon— <i>Frank L. Wright</i> .....	282
Treated High Speed Steel by Means of the Milling Cutter; Evaluating Quality in Heat— <i>J. B. Mudge and F. E. Cooney</i> .....	221
Treating and Forging; Furnace Development in Heat— <i>W. M. Hepburn</i> Treatment Applied to Cold Heading Ball Dies of Plain Carbon Tool Steel;	126

High Temperature Quenching— <i>Frank L. Wright</i> .....	282
Treatment; Dilatometric Analysis of Steel and Some Results of Dilatometric Heat— <i>R. W. Woodward and S. P. Rockwell</i> .....	795
Treatment; Drawn Wire and Its Heat— <i>A. V. de Forest</i> .....	952
Treatment; Facts and Principles Concerning Steel and Heat—Part XVI— <i>H. B. Knowlton</i> .....	142
Treatment; Facts and Principles Concerning Steel and Heat—Part XVII— <i>H. B. Knowlton</i> .....	848
Treatments of Castings and forgings as Evidenced by Core Drill Tests from Heavy Sections; High Temperature— <i>W. J. Merten</i> .....	1

## V

Value of Nickel and Chromium in Gray Iron Castings; Economic— <i>D. M. Houston</i> .....	105
Voltage X-Ray Diffraction Analysis of Metals; High Speed, High— <i>Dr. Ancel St. John</i> .....	485

## W

What Happens When High Speed Steel is Quenched— <i>B. H. De Long and F. R. Palmer</i> .....	420
Wire and Its Heat Treatment; Drawn— <i>A. V. de Forest</i> .....	952
Working; Hardening by Reheating After Cold— <i>M. A. Grossmann and C. C. Snyder</i> .....	201

## X

X-Ray Diffraction Analysis of Metals; High Speed, High Voltage— <i>Dr. Ancel St. John</i> .....	485
